PROFESSIONAL OBJECTIVE

As a dedicated Crypto Research Analyst with a solid foundation in technical, fundamental, and on-chain analysis, my goal is to leverage my expertise in blockchain technology and market intelligence to provide actionable insights for crypto investors and institutions. I aim to contribute to the growth and development of a forward-thinking organization by delivering high-quality research, identifying emerging trends, and offering data-driven strategies that guide investment decisions. With extensive experience working with leading on-chain analytics tools like Glassnode, Santiment, and CryptoQuant, I am committed to helping clients navigate the complexities of the cryptocurrency market and make informed, strategic decisions.
